

# Let us help you with your journey to compliance

How we helped a large governmental agency ensure software compliance through automation and reduce costs

## Step 1

We investigated the challenges of a large governmental agency which was facing software license compliance issues and high costs.

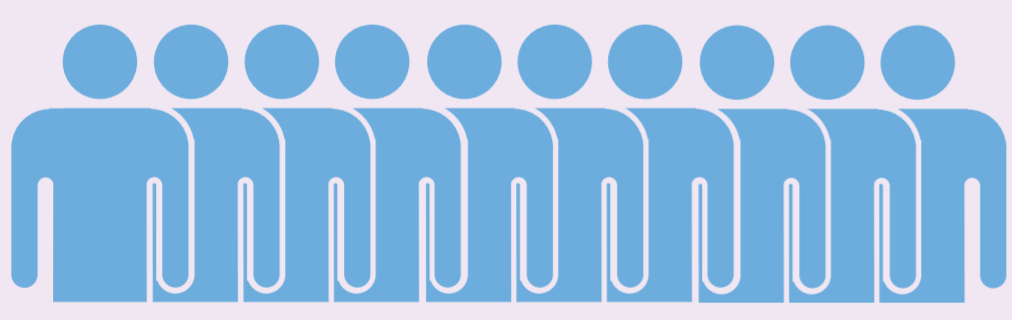

## Step 2

We implemented the three disciplines of *assyst* (ITSM, ITOM and ITBM).

## Step 3

We sat down with our client who told us about the tangible results of the implementation.

## These are the results we achieved

10 

full-time staff are made available for new initiatives

16,000hrs

of travel time saved yearly, reducing the organization's carbon footprint

63% 

of incidents and service requests are logged through the self-service portal

3,000 

onsite visits replaced by centralized automation

650,000km

of annual travel avoided reducing costs

99% 

reduction in effort required to ensure workstations are compliant
